DETAILED ACTION

Amendment filed 11/13/06 forms the basis of this action. In said Amendment applicant cancelled all previously pending claims and added new claims 17-26.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with M.J. Pollock (29,098) on December 26, 2006.

The application has been amended as follows:

In Claim 17: the wording "formed the substrate" (line 3) has been replaced by "formed in the substrate".

In Claim 17: in line 9, the wording: "a single source region and a single drain region" has been replaced by "a single, contiguous source region and a single, contiguous drain region".

In Claim 24: in lines 11-12, the wording: "one source region and one drain region" has been replaced by "one single, contiguous source region and one single, contiguous drain region".

Claims 17-26 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 3663

Strictly within the context of the invention as defined by claim 1 and claim 17 Yama as cited does not teach a MOSFET with a single, contiguous drain region, nor a MOSFET with a single, contiguous source region, but instead teaches a MOSFET with a plurality of spaced-apart drain regions and a plurality of spaced apart source regions of a single MOSFET, while the stated reason for providing the gate with a peripheral contact portion is to reduce the resistance of the distributed contact, by which is meant the contacts 4 as they are evidently distributed between the plurality of source and drain regions. Therefore, there does not appear to be a motivation for arranging the same peripheral portion of the gate electrode (as claimed through the recited second portion (claim 17, line 16, and claim 24, line 17) in the presence of a single, contiguous source region and a single, contiguous region (claim 17, line 9 and claim 24, lines 11-12).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Johannes P. Mondt whose telephone number is 571-272-1919. The examiner can normally be reached on 8:00 - 18:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack W. Keith can be reached on 571-272-6878. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
